ARGO PLUS designer Litter Bin , total dimensions (width x depth x height) 400x400x1025 mm, 80 liters, made with a steel bucket (treated with the Ferrus process, the triple-layer protector for iron, which guarantees optimal corrosion resistance). Finished with epoxy primer and gray polyester powder paint. Reinforced with laser-cut windows, supported by a solid structure and a triangular anchor base with holes for fixing it to the floor. Prepared for anchoring with 3 M8 expansion bolts according to surface and project.
Optional not included: Customizable marking with 74x35 mm/80x100 mm aluminum plate.

Materials & Finishes:

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
