Fountain FONTI, total dimensions (Ø x H) 310 x 985 mm, made of cast iron (treated with the Ferrus process, the triple-layer protection for iron, which guarantees optimal corrosion resistance), with a side push button. Prepared for anchoring with three M8 expansion bolts depending on the surface and project.

Materials & Finishes:

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
