Kids picnic Table , overall dimensions (length x width x height) 1500x1080x570mm, made of Rebnew 100% recycled polymer. Prepared for anchoring with screws.
This compact children's picnic Table consists of a central tabletop and two side Benches integrated into a single structure. The set features a sturdy design with enclosed sides and wide supports, providing excellent stability and safety during use. The design incorporates rounded, continuous shapes on the sides, reducing sharp edges and improving ergonomics for children. The Benches are positioned on both sides of the tabletop, allowing simultaneous use by several children in environments such as parks, school areas, or recreational zones.
The complex stands out for its robust and homogeneous appearance, with a construction system that minimizes maintenance and guarantees high resistance to intensive use and outdoor conditions.

Materials & Finishes:

ReBnew: 100% recycled polymer, sturdy and durable, derived from urban, industrial, and domestic waste... It is weather-resistant, resistant to oils, acids, and seawater. It does not splinter or crack, nor does it rot or dry out.

Irregular surface finish makes the board extremely durable as it effectively hides scratches caused by vandalism. Nevertheless, surface scratches can be repaired to restore it to a like-new condition.

Scratch Repair on ReBnew

AWARDED WITH "DER BLAUE ENGEL": Product with low environmental impact throughout its lifecycle. It is awarded to products that meet criteria for reducing environmental impact in manufacturing, recycling, packaging, use, emissions, collection, and disposal. In addition to environmental criteria, it includes quality, safety, energy consumption, and other considerations. It is one of the most prestigious labels globally.
