Inclusive Product

Regulations and certifications:

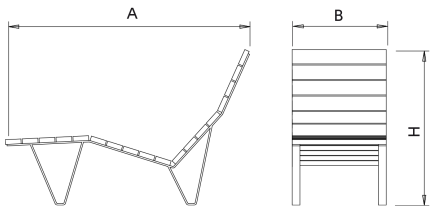

ISO 9001 ISO 50001 ISO 14001 ISO 45001

Neobrcino sun lounger, dimensions (length x height x depth) 1558x987x700mm, made of tropical wood and painted steel . Steel structure with FERRUS treatment in hammered grey. Seat made of 6 slats of equal rectangular section, made of solid tropical wood, 100% FSC certified, protected with LIGNUS and GRAFUS treatment (anti-graffiti treatment for wooden surfaces). Fixed to the ground by means of four Ø10mm bolts.

Materials & Finishes:

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.

Hardwood treated with LIGNUS: Wood from responsible forestry. Density greater than 930kg/m³, at 12% humidity, treated with a triple-layer LIGNUS coating, fungicide, insecticide, and water-repellent that provides protection against moisture penetration. Final finish with a layer of natural pigment in a satin finish, which provides additional protection against UV rays, the main cause of deterioration in this type of material.
