Regulations and certifications:

ISO 9001 ISO 50001 ISO 14001 ISO 45001

DUAL designer Fountain , total dimensions (length 1 x length 2 x height) 700 x 550 x 1040 mm, made of stainless steel, with a gloss and satin finish and ergonomic fittings. Environmentally friendly: with adjustable water flow rate, which helps save water consumption. Prepared for anchoring with three M12 expansion bolts, depending on the surface and project.

Materials & Finishes:

Stainless steel: Structural alloy with a high chromium and nickel content, resistant to corrosion. High resistance to weather, humidity, UV rays and chemical agents present in urban environments. Thanks to the natural formation of a protective passive layer, stainless steel does not require additional coatings, ensuring excellent durability, low maintenance and a clean, timeless appearance – even under demanding conditions such as coastal or industrial areas.
